

Follow the instructions to activate online-banking with the pushTAN-App. You need your Smartphone/Tablet, your Sparkassen-Card, your initial access data for your online-banking (Registration name/Legitimation ID) and your registration letter. Please note: Allow the requested app permissions.

1

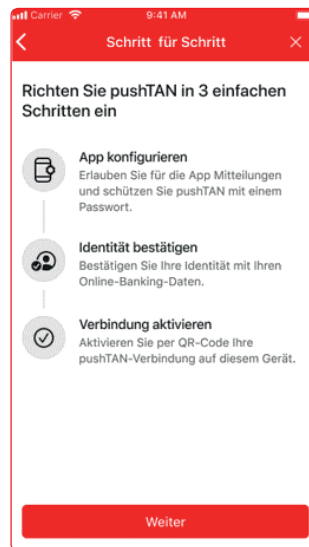

- Install the “S-pushTAN-App” onto your device from your App-Store (Google Play/ App Store)
- Start the “S-pushTAN-App”
- Your phone will display an universal onboarding-screen
- Click the button **“Jetzt einrichten”**

2

Follow the step-by-step instruction. The following screens are dedicated for:

- the acceptance of the app permissions
- choosing and entering a secure password
- the configuration of the “S-pushTAN-App”

3

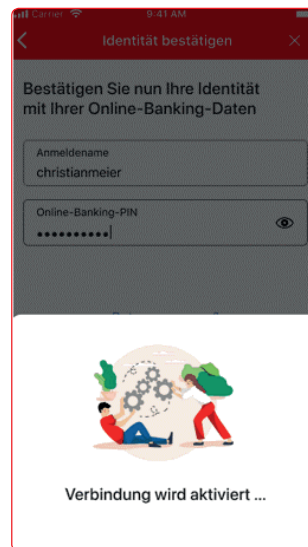

If you granted the permissions, the camera of your Smartphone will start. Please scan the QR-Code on your registration letter.

4

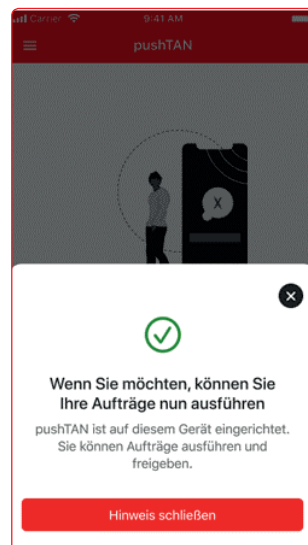

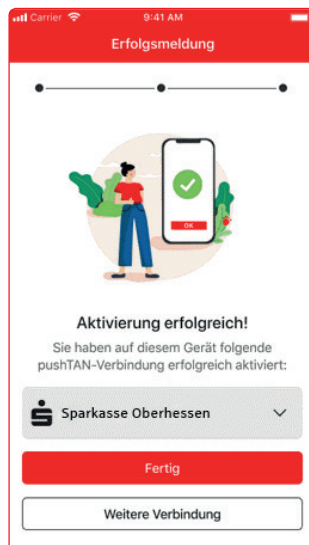

You will then be asked to confirm your identity: Enter your online-banking access data.

Attention:
If you got new access data, you have to enter it here too. The changing of the opening-PIN will be possible after a successful activation of the pushTAN-connection!

5

Once you have done so the successful activation of the pushTAN-App will be confirmed. Now you can make orders and bank transfers in your online-banking account and approve your transfer with the pushTAN-App.
